Cable Preparation

Packing

Note : cables procedures are the same but different types of cables are packed separately

What is needed

1. Either Power Cables, VGA Cables or Ethernet Cables
2. Small garbage bags
3. Labels of the correct type of Cable

Packing

1. For VGA and Power Cables they are tied as shown below

2. For longer Ethernet cables the are generally tied as shown below

3. Pack 25 cables in a bag and place an appropriate label on each
